

The Institute of Organic Chemistry and Biochemistry of the Czech Academy of Sciences (IOCB Prague) is seeking a motivated and service-minded facility manager for its **new cryo-EM facility**, which will house a 300 keV high-resolution and a 200 keV screening microscope with microED capability.

CRYO-EM Facility Manager position in Prague

The primary responsibility as head of the facility will be to ensure the smooth, hassle-free operation of the microscopes to enable collection of high-quality data sets. Other duties will include providing guidance and training in sample preparation, data acquisition, and image processing for internal users. The position includes establishment of a new cryo-EM facility and associated group at IOCB, full-time contract (reconfirmed as permanent position after 1 year) with competitive salary and benefits.

Applications must be submitted by
15 September 2020.

Interviews will be conducted
in **October 2020.**

Expected start is **January 2021**
or later based on agreement
with the selected candidate.
